PRONERVE
AWARDED ACCREDITATION FROM THE JOINT COMMISSION

Denver, CO, September 25, 2014 – ProNerve has earned The Joint Commission's Gold Seal of Approval® for accreditation by demonstrating compliance with The Joint Commission's national standards for health care quality and safety in IntraOperative Monitoring (IOM), under the subset of ambulatory care organizations. The accreditation award recognizes ProNerve's dedication to continuous compliance with The Joint Commission's state-of-the-art standards.

ProNerve underwent a rigorous on-site survey in August 2014. A team of Joint Commission expert surveyors evaluated ProNerve for compliance with standards of care specific to the needs of patients, including infection prevention and control, and leadership.

"We recognize Joint Commission accreditation as the Gold Seal for providing safe, high quality patient care. Achieving accreditation from The Joint Commission is a team effort that will bring confidence to our patients and give us a framework to provide the best care possible," says Rick Brajer, CEO of ProNerve.

The Joint Commission's IOM standards address important functions relating to the care of patients and the management of an IOM organization. The standards are developed in consultation with health care experts, providers, measurement experts and patients.

Founded in 1951, The Joint Commission seeks to continuously improve health care for the public, in collaboration with other stakeholders, by evaluating health care organizations and inspiring them to excel in providing safe and effective care of the highest quality and value. The Joint Commission evaluates and accredits more than 20,000 health care organizations and programs in the United States, including more than 10,600 hospitals and home care organizations, and more than 6,600 other health care organizations that provide long term care, behavioral health care, laboratory and ambulatory care services. The Joint Commission also certifies more than 2,400 disease-specific care programs such as stroke, heart failure, joint replacement and stroke rehabilitation, and 400 health care staffing services. An independent, not-for-profit organization, The Joint Commission is the nation's oldest and largest standards-setting and accrediting body in health care.
